

BC Innovation Council

Mandate: The BC Innovation Council is the Province's lead agency charged with a mandate to foster a culture of entrepreneurialism to drive commercialization of new technologies.

Vision: A strong and rapidly growing knowledge economy resulting in a better life for all British Columbians.

Mission: To build the knowledge economy by developing entrepreneurial talent and providing opportunities to commercialize advances in science and technology.

Strategy: Focus on 1) Entrepreneurial talent development and retention, 2) Commercialization of advances in science and technology, and 3) Awareness
